Background

History and Purpose of the Commission

The Los Angeles County Consumer Affairs Advisory Commission (CAAC or Commission) was established in 1980 and has continued to function pursuant to a Board Order by *Chapter 3.13* of the Los Angeles County Ordinance. The Commission is a non-regulatory body, the purpose of which is to represent the interests and concerns of consumers to the Director of the Department of Consumer and Business Affairs (DCBA or Department).

The Commission has provided valuable linkages between various community groups, agencies, and organizations invested in consumer issues to the DCBA and the Board of Supervisors (BOS). The collective experiences of each Commissioner as consumers, members of the business community, and leaders within their own communities has been a valuable resource that provides vital assistance to the Department and County of Los Angeles.

The Duties of the Commission

The Commission plays a valuable role by ensuring that DCBA maintains its mission of “creating a fair vibrant marketplace for consumers and businesses” through the utilization of their services and assistance programs. The duties of the Commission include, but are not limited to:

- Ascertaining the needs of consumers and advising the Director of their findings as appropriate;
- Advising the Director concerning the protection and promotion of consumer interests;
- Advising the Director regarding the need for changes in procedures, programs or legislation in order to further the interests of consumers;
- Discussing with the Director methods to improve consumer education and outreach;
- Studying and reporting on matters referred for review by the Director or the BOS;
- Rendering a report of Commission activities to the Director and the BOS at least once each calendar year and willing to testify upon request.

As mandated under *Chapter 3.13.060*, the Commission shall meet at least six (6) times per calendar year.

Organization

The CAAC is comprised of 15 appointed members (three (3) from each Supervisorial District) and are appointed by the BOS. In addition to the main body, the Commission has established three (3) standing subcommittees that also meet six (6) times per calendar year respectively.

Key Accomplishments in 2021

The CAAC proactively identified and addressed issues, problems, and concerns that have impacted Los Angeles County consumers, residents, and various communities throughout Los Angeles County. The Commission takes great pride in focusing on issues that impact some of the most vulnerable Los Angeles County consumers that include senior citizens, women, immigrant populations, children, and low-income residents. However, due to the continued impacts of the COVID-19 pandemic, the Commission made it imperative to address critical issues that Los Angeles County consumers continue to face as a result of COVID-19.

In response to COVID-19, key legislative items addressed by the Commission included a review of the Public Health Anti-Retaliation Ordinance for Reported Non-Compliance of the Public Health Officer Order, a review of Hero Pay, a review of COVID-19 Vaccination Ordinances, a review on the status of the Los Angeles County Eviction Moratorium (now the Los Angeles County COVID-19 Tenant Protections Resolution), and received information on the Small Claims program, Mediation program, Financial Navigators program, and the recently launched Rent Registry Portal.

In addition to addressing consumer related legislation, the Commission also played a key role in increasing outreach efforts to populations of consumers that would otherwise remain difficult to reach. Critical information about free and available resources like the DCBA “Get Ahead LA” website, the DCBA Office of Immigrant Affairs “Immigrant Services Map”, along with a quarterly newsletter of events, programs, and services, was shared throughout all of the Supervisorial Districts with support and assistance from the CAAC.

Finally, for 2021, the CAAC established a fifth Commission goal that was aimed at not only increasing engagement and participation with consumers and residents of the County, but to also understand and advise some of the current challenges and hardships prevalent in some of the communities and populations in which they serve. As a result of this goal, the Commission drafted a letter of recommendation to the Director of DCBA to combat food insecurity based on a need identified by Commissioners from the Second Supervisorial District. The letter was drafted in 2021 and unanimously approved via roll call vote in 2022.

Equity, Diversity, and Inclusion

Aside from the CAAC being comprised of individuals from diverse ethnic backgrounds holding cultural differences and characteristics, the leadership and membership of the Commission embrace the diversity of the constituents, communities and individuals that they represent and serve throughout all the Supervisorial Districts of Los Angeles County.

As such, on the CAAC sub-committee level, the Committee membership have always made it a priority to ensure that business taken-up by both sub-committees is accessible, equitable, diverse, and inclusive of individuals from any and all backgrounds, including individuals in all protected classes such as race, color, age, sex, sexual orientation and people with disabilities. As legislative items are reviewed by the Legislative Committee, prioritizing equitable access, diversity and inclusion, the Public Information Committee ensures that all information on available services and programs is shared within each respective district, through the DCBA website and social media accounts, via print or webinars, and that each outreach item is available in a variety of languages and accessible to all.

On the Commission level, the CAAC leadership and membership welcome any members of the public to attend both the full Commission and sub-committee meetings. The CAAC also continuously provides the opportunity for fellow Commissioners, members of the public, and stakeholders in attendance, or who have submitted a public comment via email, to share their ideas, opinions, experiences, beliefs, and challenges they may face via public comment after every agenda item and during the designated public comment section on the agenda. A central goal taken-up by the Commission includes the planning of in-district meetings with agendas targeted towards some of the most vulnerable populations of the County such as senior citizens, students, individuals with technological challenges, and from diverse economic backgrounds, in an effort to increase awareness and support to underserved communities and populations. Finally, the Commission ensured that with the transition to teleconferenced meetings in response to the pandemic, individuals who may not have internet access available to them to attend virtually, had the opportunity to attend all Commission meetings through a call-in option.

The Commission continues to advocate for the inclusion of all individuals with ethnic differences, backgrounds and characteristics and continuously works towards and equitable, diverse, and inclusive environment for all residents, consumers and populations across the County of Los Angeles.

Goals of the CAAC in 2021

The CAAC has put forth the following five (5) goals for 2021:

1. Conduct meetings, either in-person or virtually, that align with the Department of Consumer and Business Affairs (DCBA) hosted events, in no fewer than two different districts per year and each Commissioner is encouraged to attend at least 1 of DCBA's hosted events (preferably an event held in their Supervisorial District).
2. Weigh-in on legislative matters that align with DCBA's codes, standards, and goals.
3. Each Commissioner is encouraged to calendar the annual schedule of full commission meeting dates and make it a priority to attend, either in-person or virtually (if available), and actively participate in subcommittee business, having a representative from each district on all sub-committees.
4. To be inclusive by inviting diverse community members to attend Commission meetings.
5. Each Commissioner is encouraged to provide a summary of the needs of their respective districts and describe how the County of Los Angeles is meeting those needs or how those needs should be met.

Regular Meetings

In response to the COVID-19 pandemic, and in an effort to reduce the spread of COVID-19 and ensure the wellbeing of all attending individuals, the CAAC held all regular meetings in 2021 via teleconference. Attendance for all teleconferenced meetings was available using the WebEx online platform, accessible through a call-in option, and were recorded and available upon request. All meetings were held on a bi-monthly basis on the third Thursday of every meeting month.

Sub-Committee Meetings

In alignment with the meeting format for regular meetings, the CAAC also held all sub-committee meetings in 2021 via teleconference. Attendance for all teleconferenced sub-committee meetings was available using the WebEx online platform, accessible through a call-in option, and were recorded and available upon request. All meetings were held on a bi-monthly basis on the third Thursday of every meeting month, opposite of the regular meeting schedule.

Community Meetings

As a result, and in response of the COVID-19 pandemic, and as recommended by the Los Angeles County Department of Public Health and the Public Health Officer Order, the CAAC cancelled all in-person community meetings planned for 2021. To increase outreach efforts to consumers and residents of the County, the CAAC participated in three (3) webinars hosted by DCBA. The first webinar, held in June, focused on the Mediator Training and Certification Program administered by the Department for individuals interested in becoming certified as Mediators. The training is often attended and completed by various CAAC Commissioners. The second webinar, held in October, provided Los Angeles County residents with information on the Small Claims Court and Mediation process. The third webinar, held in December, provided general information to homeowners on the foreclosure prevention process. At each of these events, the Commission Chair and/or Vice Chair provided opening remarks to the attendees, promoted the services and programs available to consumers and residents, and shared how members of the public can attend Commission meetings.

2021 Standing Sub-Committees

There are currently three (3) standing sub-committees of the CAAC. The purpose of the standing sub-committees is to focus on specific issues that impact consumers across Los Angeles County, and through these sub-committees, identify and recommend that the full body review and advise on their findings. The sub-committees include the Executive Committee, the Legislative Committee, and the Public Information Committee. Each Committee meets every other month to discuss specific aspects of consumer affairs in Los Angeles County.

Committee Business

Executive Committee

The Executive Committee proposes strategic direction and reviews the administrative policy guidelines and standards for the CAAC. The Executive Committee, whose membership includes the Commission Chair, Commission Vice Chair, and each Committee Chair, work together to ensure that administrative and pertinent agenda items are brought to the full body.

Legislative Committee

The Legislative Committee ensures that Los Angeles County consumers are represented legislatively by continuously monitoring and proposing improvements to already existing, and planned legislation. The Committee often recommends changes to drafted policies as the needs of consumers continue to evolve. The Legislative Committee, which met five times in 2021, was Chaired by Commissioner Harry Leon.

In 2021, the Legislative Committee received presentations on the Public Health Anti-Retaliation Ordinance for Reported Non-Compliance of the Public Health Officer Order, an ordinance aimed at protecting whistleblowers reporting nonadherence or violations of the Public Health Office Order made by businesses or employers, information on the DCBA Rent Registry Portal, a new dashboard created for landlords and tenants of the County to pay annual rent registry dues and upload current information on properties, information on the Hero Pay and COVID-19 Vaccination Ordinance, and tracked the changes and extensions made to the Los Angeles County Eviction Moratorium, now titled the Los Angeles County COVID-19 Tenant Protections Resolution. All presentations and items were reviewed and discussed, and recommendations were made to the Commission Chair for presentation at future CAAC meetings.

Public Information Committee

The Public Information Committee identifies, facilitates and enhances public outreach and dialogue and has advocated for increased access to consumer services and consumer education, including the addition of multiple languages for department communications for the diverse communities served by Los Angeles County. The Public Information Committee, which met six times in 2021, was Chaired by Commissioner Ronnie Jayne.

In 2021, the Public Information Committee received presentations and information on free and available resources like the DCBA “Get Ahead LA” website, a platform developed to help Los Angeles County consumers find needed assistance and programs, the DCBA Office of Immigrant Affairs “Immigrant Services Map”, connecting immigrant communities with free services and legitimate legal resources, helped plan a quarterly newsletter of events, programs, and services that was shared throughout all of the Supervisorial Districts, and continued to share tips to residents on how to spot, avoid and report suspected scams. The Public Information Committee continues to coordinate with DCBA in the creation and implementation of Countywide events to ensure that challenges impacting specific communities are spotlighted.
